

Radiographic Film or Digital Plate Cabinet

TSG 320 kV Radiographic System

This cabinet can be configured as a shuttle cabinet or a Wing table cabinet. The cabinet is complete with a tube head elevator for a Comet 320 kV tube head. The access door is easy access and use for daily use or internal service entry. The cabinet is provided with CDRH type interlocking switches. The cabinet has external "X-ray On" lights, and interior lighting.
